Abstract (en)

[origin: EP1350915A2] Wooden component (52) comprises a core (62) and strip-like visible wood parts (54, 56, 58, 60) made of solid wood and fixed to the long sides of the core. The visible wood part has a thickness allowing machining. The side of the wooden component facing the environmental conditions has visible wood parts suitable for the environmental conditions. Independent claims are also included for the following: (1) Window or door edges used in the production of window or door profiles comprising the above wooden component; (2) Window or door profiles produced from the above window or door edges; and (3) Production of the above wooden component and/or door or window edges. Preferred Features: The visible wood parts are grained wood parts and/or thermally processed wood parts.
