Abstract (en)
[origin: WO02062439A1] The gaming device (10) includes a housing (16), which supports a visual display (2), preferably a video monitor. The display (2) may include a window (8) for special messages of for incrementing counting of credits accumulated by the player. The window (8) can be used to describe the initiation of the feature of the gaming device (10) in which a player is awarded outright for a winning combination and is eligible for a reward if the displayed outcome can be manipulated by the gaming device (10) to produce a winning combination.
