Abstract (en)  
[origin: EP1353420A1] The crimping arrangement has a carrier frame (12) with a guide slit receiving a crimp stamp. An operation slit runs laterally to the guiding slit and extends to a front edge of the carrier frame. A crimp plunger is provided in a slit wall of the operation slit. The crimp stamp is moved onto or away from the crimp plunger using bolts (14,15) provided at the carrier frame and at the crimp stamp.
