Abstract (en)

[origin: WO02056900A2] The invention relates to the use of secretory leucocyte protease inhibitor (SLPI) or a non-pathogenic micro-organism which is capable of forming the same, and which contains a nucleic acid coding for SLPI, for treating human and animal chronic inflammatory intestinal diseases. The invention also relates to pharmaceutical compositions for oral or rectal administration, containing the active ingredient SLPI or micro-organisms expressing SLPI, and a method for producing said pharmaceutical compositions.
