Abstract (en)

[origin: WO02059012A1] The invention relates to a primary packaging unit for a plurality of individual film tablets as pharmaceutical forms. Said unit comprises an underlayer and a sealed top layer, between which individual compartments are created for the pharmaceutical forms, whereby the underlayer and top layer are not sealed in the region thereof. The aim of the invention is to produce a sealed primary packaging for particularly round film tablets as pharmaceutical forms. Said primary packaging unit comprises at least two rows (I, II) of compartments (4, 8), said compartments (4, 8) and the pharmaceutical forms (1) of adjacent rows (I;II) are staggered in relation to each other.
