Abstract (en)
[origin: WO02055403A1] A substantially rigid product packaging shell which encloses, at least partially, a product housing space (7) with an opening that is closed using a pliable cover (6). Said shell is characterised by the fact that it comprises at least two parts (1a, 1b) that can be easily separated, at least partially, and which can be pulled apart on the side opposite the cover (6) by pivoting the area (2) next to the shell opening (4).
