Abstract (en)
[origin: WO02059032A1] In a door for lifts or elevators with panels able to slide on a threshold (3), of the type provided with at least a shoe (4) sliding in a corresponding guide, said guide is exterior to the threshold of the door and the threshold is free of grooves. The guide can be a rectilinear linear guide or a guide in the form of an annulus, preferably welded to the threshold and projecting laterally therefrom. The shoe is bolted to the lower end of the panel and it projects laterally therefrom.
