Abstract (en)

[origin: FR2819998A1] The invention concerns an ashtray (10) comprising a body delimited by a wall which, in use configuration of the ashtray, has a generally convergent shape from one first end (E1) of said body, provided with an opening for accessing (14) inside said body, towards a second end (E2) of said body capable of being driven into a loose material such as sand or snow. The body consists of a single blank (13) made of flexible material comprising at least a cut-out (16) forming a smoking article support and means (22, 24, 30, 32) for closing the access opening.
