Abstract (en)

[origin: EP1359279A1] The first profile frame (10) has an upper U-section portion with vertical sidewalls (11,19) with internal ribs. There is a vertical downwardly extending portion (12) with a broad undercut groove (13) accommodating flanges on large diameter pins (30) which pass through round bores near the top of the sheet of glass (40). The other end of each pin is held by a screw (35) which engages a second profile element (20). A downward-sloping ridge (22) on the second profile frame element engages in a groove (14) in the first profile frame.
