Abstract (en)
[origin: EP1359492A2] A portable information device is provided that comprises: a device body (1) that includes a display means (12) that allows selection from among a plurality of display directions for display of images, information and the like; an operational instruction means (21) capable of accepting input of instructions including selection instructions for selecting display direction of images, information and the like on the display means (12); and a battery unit (13) that supplies power to the device body. The device body (1) is provided with a plurality of attachment positions (14-17), such that at least one of the operational instruction means (21) and the battery unit (3) can be attached in a position that is compatible with the display direction of images, information and the like on the display means (12).
