Abstract (en)  
[origin: WO02065036A1] A door panel (9) is fastened onto the domestic appliance door (2) in order to enable the user to control the control panel (3) placed on the upper panel (10) of the domestic appliance, when the door (2) is closed. The keys on the door (5) located on the door panel (9) contact with the control panel keys (4) located on the control panel (3) when the door is closed, thus enabling the control of the control card. Said control panel keys (4) located on the control panel are in contact with the keys on the door (5) when the door (2) of the domestic appliance is closed. These keys (4,5) provide the modification of the same or different functions.
