Abstract (en)  
A prefabricated flooring panel (10) comprises: a number of parallel slats (12, 12', 12'') arranged side by side; fixing means (28, 32) for fixing said prefabricated flooring panel (10) to further similar prefabricated flooring panels; and coupling means (20, 22, 22') that hold said slats (12, 12', 12'') together transversally and that allow said slats (12, 12', 12'') to be moved longitudinally with respect to their adjacent slats, so that said prefabricated flooring panel (10) can be installed with its slats (12, 12', 12'') longitudinally staggered. <IMAGE>
