Abstract (en)
[origin: EP1361591A2] The fault current protection switch has a housing (11,14) and a test button (1) that interacts with a plastic spring element (7) inside the housing for resetting the test button. The spring element can be formed on the plastic test button and can be of meander- or L-shape. The test button accommodates a button head (2) and a button shaft (3a,3b) formed on the head that accommodates the spring element.
