Abstract (en)

[origin: WO02066084A1] An air freshener having a fragrance releasing gel 40 having a fragrance component which is released from the composition over a sustained period of time, the gel being substantially self-supporting. The gel comprises from about 40 to about 90% by weight of the total composition of fragrance component, does not exhibit syneresis and, in use, shrinks unidirectionally away from an exposed major surface 46 when supported in a container 30'.
