Abstract (en)

[origin: EP1363418A2] Method for receiving digital information, especially traffic information, in motor vehicles, whereby an automatic selection of traffic information transmitters (20, 21, 22) is made based on route-dependent and-or driver specific and-or vehicle specific and-or vehicle occupant specific selection criteria. An Independent claim is made for a device for selection of traffic information providing transmitters based on predetermined selection criteria.
