Abstract (en)

[origin: WO0246468A2] The present invention is related to a method for MALDI-TOF-MS analysis and/or sequencing of oligoribonucleotides. The present invention is also related to a method for determining the DNA nucleotide sequence using MALDI-TOF-MS, and a method for determining polymorphism using MALDI-TOF-MS. The present invention provides a kit for analysing and/or sequencing a DNA template or a RNA transcription product and/or for determining polymorphism by MALDI-TOF-MS.
