Abstract (en)
[origin: WO0241818A1] The invention relates to an absorbent sanitary protection means (1), designed so as to be worn intralabially and comprising an absorption body with a first surface (5) which is intended to face a wearer during use and a second surface (4) which is intended to face away from the wearer during use. The absorption body of the sanitary protection means (1) consists of a preformed, dehydrated hydrogel and is in the shape of a spoon with a cup-shaped portion (2) arranged on the first surface and an elongate handle-shaped portion (3) which, by means of the preforming, comprises a portion which, on wetting, swells and forms a raised portion (6) on the first surface (5) of the protection means.
