Abstract (en)

[origin: WO02075036A2] A laundry rack comprising a support and a rod assembly for attaching laundry, the rod assembly having a proximal end and a distal end, the rod assembly being pivotally connected to the support at the distal end and actuatable between a closed position for hanging laundry, and an open position for loading / unloading laundry, in which the laundry rack comprises releasable locking means for locking the rod assembly in the open position. The laundry rack may further comprise a plurality of sub-assemblies connected to and movable together with rod assemblies.
