Abstract (en)

[origin: EP1369509A1] The invention relates to chenille yarns, for use in fire-resistant upholstery fabrics or furnishing fabrics, the pile of which yarn contains mainly acrylic, while over 25% of the chenille core is composed of raw materials other than standard acrylic and can be dyed with the same dyes and/or dye bath as standard acrylic. <??>The chenille core is preferably composed fully or partially of cationic dyeable polyester (with chenille pile of more than 50% standard or fire-resistant modified acrylic), or of fire-resistant modified acrylic (with chenille pile of more than 50% standard acrylic). <??>The invention also relates to acrylic chenille fabrics at least partially made of such chenille yarns.
