Abstract (en)
[origin: EP1371349A1] Bed, especially a hospital or care bed, comprises at least one safety side part (34) which is mounted so that it moves on the side surfaces (48) of the transverse bars (42) of a bearing part (32) of the mattress supporting device (30). Preferred Features: The safety side part is mounted so that it moves on the side surfaces facing in opposite directions of the transverse bars of a bearing part of the mattress supporting device.
