Abstract (en)
[origin: EP1372092A1] The present invention relates to a system for reproducing a preceding picture of a user wearing clothes or analog, comprising: a screen (4) to display at least a pre-registered picture of the user; a clothes type detector (8) to automatically identify the kind of clothes currently worn by the user; and a search unit (14) to extract automatically, from at least one central remote database (13), at least one pre-registered picture in which the user wears at least one article of clothing similar to or matchable with the current one. <IMAGE>
