Abstract (en)

[origin: DE10116922C1] The protective clothing garment is composed of metal rings braided into a chain mail, with a closure (4) on a reversible carrier (3) in a positive fit at the closing strip. The second part of the closure is integrated into the garment. The closure has a press stud structure, with a stud (6) which locks into the opening of the other part. The carrier has at least one projection (10) to lock into the chain mail in a positive fit.
