Abstract (en)

[origin: WO02077722A1] The invention relates to a mechanism (9) for actuating a striking work, said mechanism being disposed between a timer (11), which is used to countdown and to display a pre-determined time interval on a dial, and a strike train (14) in order to make said striking work heard when the timer has counted down completely. The inventive mechanism essentially comprises a lever (1) which is fitted with a leaf spring (3) and a jewel (2).
