Abstract (en)

[origin: EP1375382A1] Intermediate bulk container consisting of a container (2) placed on a pallet base (6). A cage (3) is also fitted on the pallet base. Using standard components as the starting point, the total height of the IBC is lowered in that the cage is fitted lower than the supporting surface of the container on the pallet base. When an identical IBC is stacked on top of such an IBC, slight compression of the container will take place at the top.
