Abstract (en)

[origin: EP1375404A1] The guide for shingled printed products has an input conveyor (4) to feed the documents (3) onto a main conveyor (5) with a conical guide (8). The documents slide up the face of the cone to the base which has a row of rollers freely (10) rotating about axes perpendicular to that of the cone. The rollers can be mounted on a removable ring at the rear of the cone.
