Abstract (en)

[origin: EP1376772A1] The mains socket has a facade (110) and wall (112) for plug entry. There is an obscurer element (120) placed between the rear face and the wall with rear shutters (130) having windows (121,122) with inclined surfaces for pin contact access. There is a section associated with the drive pin inserted in the body (150) so that the obscurer only passes plug pins from the front facade placed in the location of the frontal wall.
