Abstract (en)

[origin: WO02077926A1] The invention relates to a method for franking postal deliveries, whereby the franking process is controlled by a graphical user interface. According to the invention, said method is carried out in such a way that a screen menu appears during the selection of a graphical representation of a franking design, said menu containing command buttons for selecting franking options. The invention also relates to a graphical user interface suitable for carrying out said method.
