Abstract (en)

[origin: US2005091063A1] A household appliance with a simple to use selected operating language includes activating the programs by taking into account the special characteristics of specific languages. The household appliance includes a display unit that displays all information in a simple language. The selected language, the selected programming of the household appliance, and the selected additional functions in addition to error messages are shown on the display unit so that operational mistakes are basically prevented.
