Abstract (en)

[origin: EP1380696A1] The road divider comprises a set of long elements (1) intended to be placed on the road and connected together at their ends (2). Each element is provided at one end with a male connection and a female connection (4) at the other end. The female connection consists of an opening having a circular upper part and a lower part of smaller diameter. An Independent claim is included for a method of placing the road divider.
