Abstract (en)

[origin: WO02089569A1] Method and apparatus (10) for killing entomology in dry matter, comprising a treatment chamber (16), through which the dry matter can be fed, and means (12, 14, 22) for generating a corona discharge or a glow discharge in the treatment chamber (16). The means for generating a corona discharge or a glow discharge comprise electrode means (12, 14) that are placed in the treatment chamber (16) and a high voltage power supply (22) that is connected to the electrode means (12, 14) and is equipped to supply high voltage pulses to the electrode means (12, 14).
