Abstract (en)

A container for packaging fluid or pasty products, particularly cosmetic products, medicinal products and the like, comprising a hollow body (2) for containing fluid or pasty products, provided with a mouth (5), a cap (6) detachably associable with the body (2) to cover the mouth, a closure (7) for sealing the mouth (5), which is monolithically and detachably associated therewith, a seat (9) for accommodating the closure (7), formed inside the cap (6), and connectors (10) for connecting the closure (7) to the seat (9), so as to prevent mutual rotation or sliding of the closure (7) and the seat (9) or both, the closure (7) being disengageable from the mouth (5) and accommodatable in the seat (9) upon a first removal of the cap. <IMAGE>
