Abstract (en)

[origin: EP1382918A2] The ventilation unit, for a building, has swing slats (1) in a frame, with slat plates (2) fitted with longitudinal edge profiles (3,4), and connectors (6) at the side edges. The slat plate is inserted into pockets in the longitudinal profiles, in a clamped fit. The connectors have holders with ventilation openings (14) to take the inserted end edges of the longitudinal profiles and the slate plate. The assembly has a longitudinal water take-off channel (5).
