Abstract (en)

[origin: EP1383091A1] The apparatus (10) has a casing (12) to insert a cashbox so that it is positioned with a slidable wall facing downwards on a slider (18) located in the casing. A slider connecting apparatus is attached to a wall of a cashbox. A blocking apparatus withdraws the slider at an end position of the casing, and pushes the slider into a fully inserted end position.
