Abstract (en)
[origin: WO02087403A1] The invention concerns a paper article dispenser, in particular entangled napkins, comprising a receptacle closed by a panel (7) forming the front side and provided with an article dispensing opening (71) with an edge (73). Said dispenser is characterised in that part at least of the edge of said opening is extended by a wall element (74) projecting relative to the plane of said panel, whereby the front end of the paper article rests on the wall element and is more easily grasped.
