Abstract (en)

[origin: WO02077079A1] The invention relates to a water-dispersible emulsion film comprising at least one polymer and containing at least one chelating or complexing agent. The invention also relates to the method for preparing and forming one such polymer film. Moreover, the invention relates to a method for protecting a surface against contaminants or pollutants using the film and a method for cleaning and decontaminating a surface using said film.
