Abstract (en)
The set of snowboards comprises at least two boards (11) having structures and upper faces of different geometry. Each board is fitted, on upper side (6), with platform (7). Platform is used to raise fixing elements, i.e. front (8) and heel (9) attachments, securing ski shoe to board. The platform is identical for all the snowboards. Each board includes joint inserted between platform and upper side of board. An Independent claim is included for a method for manufacturing the set of snowboards.

Abstract (fr)
Un ensemble (1) d'au moins deux planches de glisse sur neige (11, 12, 13) présente des dimensions, des structures et/ou des faces supérieures de géométries différentes. Chaque planche de glisse sur neige (11, 12, 13) est équipée d'une plate-forme (7) de surélévation des éléments de la fixation (8, 9). La plate-forme (7) est identique pour toutes les planches de glisse sur neige (11, 12, 13) de l'ensemble (1). Chaque planche de glisse sur neige (11, 12, 13) comporte un joint particulier (18) interposé entre la plate-forme (7) et la face supérieure (6) de la planche de glisse sur neige (11, 12, 13). <IMAGE> <IMAGE> <IMAGE>
