Abstract (en)  
[origin: WO02090115A1] The invention relates to a shunting track (26) in a transport device for drawing in a length of material (01) via drawing means (04). One end (34;36) of the shunting has a first guiding section (29). Said end is selectively aligned on a front end of one second or third guiding section (31;32), whereby one front end of the shunting track of the first guiding section is fixed.
