Abstract (en)
[origin: WO02082179A1] The invention relates to an archiving holder (1) for the conversation of images (9) into electrical format. The archiving holder (1) comprises at least one opening (4, 5), in connection with which the image (9) is arranged to be placed. The archiving holder (1) consists of at least a first part (2) and a second part (3) which are placed on top of each other. At least one opening (4, 5) is provided substantially in the same position in the first part (2) and in the second part, and at least one opening (4, 5) is provided with at least one fastening means (8) for fastening the image (9) in a detachable manner in the archiving holder (1).
