Abstract (en)

[origin: EP1386596A1] Walker to facilitate the movement of physically handicapped people, which comprises a platform (1) equipped with wheels (2,3) below for support and with driving means for the same, as well as with upper columns (4) for supporting the user. The walker also comprises three wheels (2,3), two of which are arranged with their axes aligned and are mounted on a common axle (10), which is connected, by means of a transmission element, with the driving means. Said driving means and the transmission element are located, together with the wheels, on the lower surface of the platform. <IMAGE>
