Abstract (en)

[origin: EP1387049A1] The turning lever (3) has a roller element (4) with a turning point (4') in a slideway track. There is also a control track (6) on an intermediate element. The lever is controlled by a cam on a camshaft against a spring. The lift can be adjusted by a setting device. The housing (17) and the slideway are made from sheet metal.
