Abstract (en)
[origin: EP1388617A1] Outlet fitting, especially for a whirlpool bath, comprises a closable outlet connected via an outlet pot (33) to an outlet pipe and mounted on an outlet opening of a bath, and an actuating unit for opening and closing a valve at the outlet and for opening and closing a further connection (26) connected to the outlet pot via a closing element. The actuating unit has an actuating element (20) for simultaneous operation of the valve at the outlet and the closing element at the further connection. Preferred Features: The actuating element is a rotatably mounted bolt. The bolt supports on one end a turning valve (23). The bolt and/or the turning valve are made of plastic.
