Abstract (en)  
[origin: EP1388618A1] Outlet fitting, especially for a whirlpool bath, comprises a closable outlet connected via an outlet pot to an outlet pipe and mounted on an outlet opening of a bath, and an actuating unit (20, 24) for opening and closing a valve at the outlet and for opening and closing a further connection (30) connected to the outlet pot via a closing element (27). A spout (31) for connecting to a residual water pipe is clamped on the further connection. Preferred Features: The spout is made of a different material, preferably metal, to the connection. The spout is fixed to the connection using a clip (34). The spout has a cylindrical section (32) which is inserted in the connection in a sealed manner.
