Abstract (en)
[origin: EP1388914A1] The electrical terminal system has a plug under part (2), secured to a mounting surface (3) of the lamp via a number of mounting elements (13) and having a number of plug elements for providing an electrical connection with a plug upper part (1) attached to the end of a supply lead (22) and a number of coupling elements for providing a mechanical connection with the plug upper part. Also included are Independent claims for the following: (a) a plug under part for an electrical terminal system for a lamp; (b) a plug upper part for an electrical terminal system for a lamp; (c) an application of a plug under part in an electrical terminal system for a lamp; (d) an application of a plug upper part in an electrical terminal system for a lamp.
