Abstract (en)

[origin: EP1389509A2] Method for sawing wood boards (12) in which the wood is to be cut into planks, whereby in a first step the wood is cut along a zero line (32) by placing the wood against a zero line so that the first cut is made in a section of the board that is essentially parallel to a transport plane (13). The invention also relates to a corresponding device for method implementation.
