Abstract (en)
[origin: WO02098437A1] The present invention relates to a Korean Acanthopanax Senticosus extract, a protein extract and crude protein polysaccharide derived therefrom, and an immuno-regulating composition comprising the same as an active ingredient and the use thereof, and more particularly to a Korean Acanthopanax Senticosus extract and a protein extract and crude protein polysaccharide derived therefrom, which are have effective in increasing immunity and have superior anti-allergy effects and thus can be used as an active ingredient for functional foods, cosmetics, and pharmaceutical compositions, and as an immuno-regulating composition comprising the same as an active ingredient and the use thereof.
