Abstract (en)
[origin: EP1394902A1] The connection terminal has a bus bar (4) with an arrangement for contacting at least one conductor to be connected and a protective conductor connection (14,16,18) for joining the terminal to a profiled protective bus bar. The protective conductor connection is joined to the bus bar in one piece. The protective conductor connection has a base section (14) and a sprung latch section (16).
