Abstract (en)  
[origin: EP1396310A1] The workpiece surface processing device (1) has a surface processing tool and a pressure part (3) that is provided to press the surface processing tool against the workpiece, an electric drive for driving the pressure part and a control device that controls the electric drive so that a desired pressure is set up between the tool and the workpiece. AN Independent claim is also included for the following: (a) an a method of processing workpiece surfaces using the inventive device.
