Abstract (en)

[origin: EP1400629A2] A base frame (29) adjustable horizontally and transversely across the length of the rail (12, 13), is arranged on a base which extends along the rail, having running rollers (39, 41) and track rollers (38,40,42). The frame carries a vertical grinding module (28) which can be adjusted in angle. A controller (58) is provided for all adjustments.
