Abstract (en)
An aqueous liquid cleaning composition comprises (wt.%) surfactant (0.01-1), alcoholic solvent (0.1-25) and polymer (0.0005-0.1). The alcoholic solvent is a hydrophobic solvent of 4-6C aliphatic alcohol or glycol mono-ether. The polymer is a copolymer of styrene and an unsaturated carboxylic acid or carboxylic acid precursor. An independent claim is also included for a wet wipe comprising a flexible substrate made of woven or non-woven fibrous material layer(s) impregnated with the aqueous liquid cleaning composition.
