Abstract (en)

[origin: WO03000569A1] Cover to seal spray containers with female valve, characterised because it consists of a disc (1) with a thinner edge on one half (2), because there is a hollow, cylindrical, and perpendicular prolongation (3) in the centre of the lower side of the disc (1), and because there is a very small hole (4) crossing through the disc along the central axis of the disc (2).
